NORDIC WINTER MEETING ON PHYSICS @ FAIR Björkliden, Sweden, March 22-26, 2010

The Nordic Winter Meeting on Physics @ FAIR will be directed towards the upcoming physics program at FAIR, the Facility for Antiproton and Ion Research in Darmstadt, Germany. The scope of the meeting will reflect the broad research interest that is represented by scientists in the Nordic countries

- * Atomic physics
- * Hadron physics
- * Hot and dense matter
- * Nuclear astrophysics
- * Nuclear reactions
- * Nuclear structure and ground-state properties

In particular, the meeting aims to bring together internationally renowned experts, as well as students entering these fields. This event occurs at a critical moment in time when FAIR experiments and FAIR-related theory should begin to materialise.

The conference is organized jointly by scientists in the Nordic countries with major financial support by Nordforsk and the Swedish Research Council through SFAIR (the Swedish FAIR Consortium).

Invited Speakers

- * Laszlo Csernai, Bergen
- * Christina Dimopoulou, GSI
- * Hans Feldmeier, GSI
- * Alexandra Gade, East Lansing
- * Ari Jokinen, Jyväskylä
- * Stefan Leupold, Uppsala
- * Jiri Mares, Prague
- * Takashi Nakamura, Tokyo
- * Witek Nazarewicz, Tennessee
- * Wilfried Noertershaeuser, Mainz
- * Steve Olsen, Seoul
- * Giuseppina Orandini, Trento
- * Josef Pochodzalla, Mainz
- * Frank Rathmann, Juelich
- * Rene Reifarth, Darmstadt
- * Boris Sharkov, FAIR director
- * Rob Timmermans, Groningen
- * Andrzej Warczak, Crakow
- * Andreas Wolf, Heidelberg

Local organizing committee

- * Torbjörn Bäck, Stockholm
- * Joakim Cederkäll, Lund
- * Christian Forssén, Göteborg (chair)
- * Hans Fynbo, Aarhus
- * Morten Hjorth-Jensen, Oslo
- * Rauno Julin, Jyväskylä
- * Eva Lindroth, Stockholm
- * Thomas Nilsson, Göteborg (SFAIR)
- * Per-Erik Tegnér, Stockholm (co-chair)
