

Rapid Reaction Task Force
Dynamics of critical fluctuations:
Theory – Phenomenology – Experiment

working groups:

- “Implementation of critical dynamics”, convener: **Aleksas Mazeliauskas**
- “Coupling with the bulk evolution”, convener: **Volker Koch**
- “Experimental Challenges”, convener: **Anar Rustamov**
- “Relevance for and interplay with other systems”, convener: **Stefan Flörchinger**

Tuesday afternoon:

“Implementation of critical dynamics” together with “Coupling to the bulk evolution”

“Experimental challenges” together with “Relevance for other systems”

Wednesday afternoon:

“Implementation of critical dynamics” together with “Experimental challenges”

“Coupling to the bulk evolution” together with “Relevance for other systems”

Wednesday afternoon:

“Implementation of critical dynamics” together with “Relevance for other systems”

“Coupling to the bulk evolution” together with “Experimental challenges”
