

40th International Workshop on High Energy Density Physics with Intense Ion and Laser Beams

Tuesday 28 January 2020

High-Intensity Lasers and Applications in HED Science I (08:30-10:15)

-Conveners: Paul Neumayer

time	[id] title	presenter
08:30	[57] Status and first results of ATLAS-3000 at CALA	Prof. KARSCH, Stefan
09:00	[6] Towards Laser Acceleration of Spin-Polarized Helium-3 Ions	CHITGAR, Zahra
09:25	[7] Generation of relativistic electrons and gammas in interaction of relativistic laser pulses with plasma of near critical density.	ROSMEJ, Olga
09:50	[15] Picosecond-contrast degradation in CPA laser systems	Mr SCHANZ, Victor
