

Second workshop on Silicon Multipliers within HadronPhysics2

Monday 22 February 2010

Reports from the Participants I (13:30-15:30)

time	[id] title	presenter
13:30	[0] AMPD tests at Charles University of Praha, by Peter Kodys, Prague	
14:00	[1] Timing and low temperature properties of SiPM, by Gianmaria Collazuol, INFN Pisa	
14:30	[2] Study of timing performance of SiPM and application for a Cherenkov detector, by Achmed Gamal, SMI Vienna	
15:00	[3] Study of spectral sensitivity of G-APDs in the wavelength range from 250 to 800 nm, by Dipanawita Dutta, GSI Darmstadt
